Product Portfolio

▶ Anaerobic adhesives

- Securing and bonding screw joints, bonding bearings and cylindrical components, securing and bonding pipe threads and providing surface seals.

▶ Cyanoacrylate adhesives (instant glues)

- Wide range of viscosities, with accessories such as activators, primers, sanders and removers.

▶ Aerosols & functional fluids

- Extensive selection of cleaners, lubricants, zinc sprays and adhesive solutions available in aerosol containers.

▶ Epoxy adhesives

- Liquid metal, clear epoxy glues and hand-kneadable repair putties.

▶ Single-component adhesives & sealants

- High-temperature silicones and MS-polymer/PUR adhesives and sealants.

▶ Two-component structural adhesives

Adhesives used as alternatives to welding, riveting and screwing

- Comprehensive variety of adhesives formulated with MMA, PU, epoxy resins and MS-polymers, ideal for bonding metals, plastics, composites and other materials.

▶ High-temperature lubricants

- Anti-seize solutions in copper, ceramic and aluminium variants.

▶ Structural adhesive tapes

- Single-sided and double-sided structural adhesive tapes available in custom sizes, with die-cuts and specialty options.

▶ Accessories

- Wide range of accessories, such as manual and pneumatic dispensers, mixing nozzles and precision dispensing systems designed for automated mass production.
